Texas duration of the controlling order. Read the award for the later of the eighteenth birthday and high-school graduation, any earlier statutory termination, and any obligation for an adult child with a disability. Under Texas Family Code §§ 154.001–.002, a court can provide support after 18 for qualifying accredited-secondary, joint high-school/junior-college or full-time private-secondary diploma education and the applicable attendance requirements. A request can be filed before or after the eighteenth birthday. An order can continue monthly payments through the end of the graduation month. Graduation before 18 or an eighteenth birthday during qualifying attendance does not by itself establish the end of current support. See Texas Family Code chapter 154.

Texas proceedings. For an interstate case establish authority to modify and identify the governing duration under Texas Family Code § 159.611. Under § 156.401(b), a change generally affects obligations accruing after the earlier of service of citation or appearance, subject to the stated statutory exceptions. Distinguish ongoing current support, past-due amounts, medical or dental support and the separate withholding process under chapter 158.

2. The movant requests review of the following claimed event and its effect on the actual order:

- **Age Of Majority**, effective **October 31, 2026**.

3. Child-by-child legal and order review: Review child-by-child schooling, actual order dates, adult disability and any remaining children.. School enrollment, disability, other continuing duties and other supported children may affect relief. No automatic termination or release of arrears or withholding is established here.

III. Arrears Preservation

4. No positive arrears amount is supplied. This is not a finding of a zero balance; see the actual record and unresolved questions above.

IV. Prayer

WHEREFORE, Movant prays that this Court:

A. Determine the continuing obligations, affected children and applicable duration law. The facts supplied do not support a request to end the entire current obligation.

B. Address any change in withholding separately. Continue to comply with the current order and applicable withholding instructions until lawfully changed.

C. Determine any remaining support or enforcement obligations;

D. Grant such further relief as is just and proper.
