Illinois funeral honors detail

This is a request relating to participation on the detail at a veteran's funeral. The state paid-leave provision applies to employers with at least 51 employees and specified trained military members or authorized providers. Ordinary limits are eight hours per calendar month and 40 per calendar year. Greater time can be authorized by the employer or a collective bargaining agreement. Covered hours are payable at the regular rate with no requirement to first use other accrued leave. Give reasonable notice as practicable. The employer may request dispatch confirmation or official participation documentation. Specified care facilities can raise a minimum-staffing or safe-operations ground subject to any collective bargaining agreement. Please review my role, training, dates, hours, facility circumstances and any applicable agreement. Attendance as a guest is distinct from serving on the detail. This request does not certify entitlement to paid hours.

Please confirm receipt, the next steps, any requested supporting material and the decision when made. This employee request does not itself designate leave or record an employer decision.
