VIRGINIA HEALTH CARE PLANNING RECORD — UNSIGNED

Purpose considered: appointing a health care agent without making a living will.

For Morgan Rowan. Intended date: 2026-11-03. The requirements for signing this adult directive have not been confirmed. This record makes no appointment and grants no authority to give or refuse treatment. Revisit the maker’s age and ability to understand this decision, any named agent’s age, and the plan for two subscribing witnesses before signing a directive. A minor’s ability to consent to particular care is a separate question.
